

# Farmers Assistance Program

The farmers assistance program is a virtual platform administrated by the firm Dialogue. Thanks to a simple, unique and easy-to-access tool, producers, their spouses and their children under 21 can benefit from health and well-being services all available in one place.

## Three different services

- **Unlimited primary physical health care** : telemedicine service to treat problems that do not require an emergency intervention
- **Mental health and stress management services** : resources and directed therapy to treat diagnosed mental health problems
- **An assistance program for producers and their families** : relationship services, legal and financial advice, guidance counselling, etc.

## Many advantages

- A simple and efficient process from an encrypted web or mobile application, **confidential** from start to finish
- A **respond** to service requests generally **within 60 minutes**
- An **appointment** with a professional **within 24 hours**
- An all in one **application** that simplifies access to all wellness programs
- **One single login** to access all programs, which reduces frustration and delays before receiving care
- An **electronic medical record** to ensure a consistent and coordinated care experience

## A single and annual cost

- Subscription at the cost of **\$210 per year**, a rate that includes the main subscriber, his or her spouse and their dependent children (\$105 per year for a subscription after July 1<sup>st</sup>).
